

## euku clean

### 1 PRODUCT DESCRIPTION

Cleaning concentrate. For day-to-day cleaning of all floors and the cleaning of other surfaces, also post-installation cleaning.

Cleaner without care-effect, based on highly effective tensides.

### 2 AREAS OF APPLICATION

Recommended for the day-to-day cleaning of wood and cork floors. For use in private residences and public buildings.

### 3 APPLICATION

The floor must be pre-cleaned of loose dirt with a broom or vacuum-cleaner. Fine dirt, dust, or water-soluble marks should be regularly wiped away with a slightly damp mop. For this purpose add 0,05-0,1 l **euku clean** to approx. 10 l warm water. Avoid using excessive water; in general the amount of water on wood floors should be kept to the minimum possible.

Floors must not only be cleaned, but also protected and maintained with care treatment. For more details please refer to our Cleaning and Care instructions.

Please note:

- For spot-cleaning of heavily soiled areas, or stubborn stains, a more concentrated application is also possible. Rinse immediately afterwards with clear water. If necessary, reapply care treatment.
- Larger areas can be cleaned using a monodisc-machine SRP with a scratch-free white pad. Remove the dirty solution directly afterwards with a wet-suction vacuum-cleaner.

### 4 CONSUMPTION

Dilute 0,05-0,1 l in 10 l warm water. In this ratio 10-20 applications per litre.

### 5 DRYING TIME

Can be used and walked on after the water has dried.

### 6 STORAGE

Store in a cool, dry place. Can be stored for 24 months in unopened, original canister from date of manufacture. Keep out of the reach of children.

### 7 TECHNICAL DATA

## euku clean

Contains substances: water, 5-15% anionic tensides, below 5% nonionic tensides, amphoteric tensides, CHLOROMETHYLISOTHIAZOLINONE, METHYLISOTHIAZOLINONE, BRONOPOL, fragrances.

pH-value: ~9 (undiluted)

ADR/RID: not a dangerous good as defined by transport regulations.

CLP: GHS 07, Warning. Causes serious eye irritation.

Completely emptied canisters can be disposed of in domestic waste.

### 8 SPECIAL NOTES

- Our recommended care products for coated wood floors (sealer, UV-lacquers, UV-oils, film-forming oils): **euku wax** and **euku mattwax**.
- Oiled-impregnated floors become dried and tired as a result of watery cleaning. Care treatment must be reapplied by impregnating with oils. For this we recommend **euku refresher**.
